CLIENT RAVES

"I highly recommend Sylvia Plester-Silk to any organization that is looking to improve employee morale and results. She recently completed our organizational diagnosis (Discovery Process). And I was impressed with the insights she offered about the internal dynamics of my organization. Not only was her information detailed and specific, she was able to offer suggestions for improvements that fit our organization's specific needs. She was a pleasure to work with."

B. Connors, General Manager, Waterloo Wellington Flight Centre

"I would encourage any organization that would like to know and understand their current milieu to engage with On Purpose Consulting. I found the whole process from the beginning to the end, which included Executive Coaching, a great experience. Sylvia took us through her Discovery Process which was a very easy and all telling exercise. As a result of working with her, staff felt heard and changes have been made to make Dunara an even better place to work."

Y. Bowes, Executive Director, Dunara Homes for Recovery Inc

"Through the executive coaching I received from Sylvia, I gained self-awareness and improved communication skills. I learned how to lead my employees in a manner that helps me be better understood enabling our organization to move forward. I'm better understood by my senior team and my employees as a result of implementing techniques I learned from Sylvia. I highly recommend Sylvia to managers looking to better understand their management team, how to lead more effectively through improved communication, and listening skills."
